

September 19, 2022

To Members of the Waterford RTM:

As residents of the Town of Waterford who use the Pleasure Beach, we are asking that the approval of funds for repair of the entrance walkway be approved. We understand this project is being brought before the RTM and wish to express our support of the project.

This path has become very dangerous and has caused tripping, slippage as well as stumbling. This is due to the erosion over the years of this pathway. Someone is going to get seriously hurt. Fixing this entrance will enable individuals with strollers, beach wagons, walking problems to enter the beach safely. Currently everyone must maneuver between tree roots, loose gravel, and boulders. The repairs and improvements of this right-away will make it easier for everyone including the elderly, disabled and young moms to enter.

Please approve the funds so all residents and patrons can enjoy this lovely beach without having to enter through a dangerous entrance.

Thank you for your time and consideration to this project. Attached you will find a list of residents who have signed this letter over this past weekend.
