Good morning gentlemen:

Hit another milestone over the weekend, going over the 2000 mark for PB play since August 23rd..... since the count started we've had **14** rainouts and **62** playable days with **2036** and counting. That easily projects to an annual number of 9000+ when taking into consideration a slowdown over the winter months and the spike we will see May thru Aug that is not in these numbers. Ryan - let us know if you need any help with the cost estimates or other PB-related matters, and Rob - let us know when you need PB peeps reaching out to the other Town stakeholders. Be well.

Jim
