FINANCE DEPARTMENT

Memo

To: The Board of Selectmen
From: Shea Moses
Date: June 23, 2023
Re: Award-Bid#23-121 Fargo Tank Recoating and Improvements

Dear Mr. Brule:

Proposals for the above mentioned project were opened on May 31, 2023 by Jill Stevens and I with the attached results. After careful review of proposals, it is determined that Utility Service Co., Inc., is the lowest most qualified bidder able to complete this project.

I therefore respectfully seek the Board's approval to award the contract to Utility Service Co., Inc. for \$999,900.00.

Funds will be available in line # 23531-55014, Fargo Lane Water Tower Rehab.

Shea Moses
Purchasing Agent,
Town of Waterford

HALEY WARD.

ENGINEERING | ENVIRONMENTAL | SURVEYING

June 23 2023

Town of Waterford Utility Commission
Attn: Jim Bartelli, Director of Utilities
1000 Hartford Road
Waterford, CT 06385

Re: Fargo Water Tank Sandblasting and Painting, Waterford CT Haley Ward Project No. 21-365

Dear Mr. Bartelli:

On May 31, 2023, the Town of Waterford opened bids for the above referenced project as follows:

<u>BIDDER</u>	<u>BASE BID</u>
Utility Service Co., Inc.	\$999,900.00
MW Cole Construction, LLC	\$1,025,000.00
Allied Painting, Inc.	\$1,225,000.00
Marcel A. Payeur, Inc.	\$1,677,000.00
Atlas Painting and Sheeting Corp.	\$1,764,000.00
Amstar of Western New York, Inc.	\$2,214,000.00

We have reviewed the references provided by the three low bidders, and all three provided numerous satisfactory references.

We also asked the three low bidders to provide supplemental and missing pieces of information from their bid form, and **Utility Service Co., Inc.** and **MW Cole Construction LLC** replied.

One item of significant importance was to describe their proposed containment system and provide a description of how the Town's communication system antennas were to be relocated. Based on follow-up calls and emails with Utility Services and MW Cole, they both intend to use the TEPE system for exterior containment. This system hangs off outriggers welded to the top of the tank and raises and lowers a curtain around the tank exterior to the level where containment is needed. It typically is lowered at the end of each day.

2210 Main Street, P.O. Box 1088, Glastonbury, CT 06033
T: 860.659.3100 | HALEYWARD.COM

Both Utility Service Co., Inc. and MW Cole Construction provided a simple, acceptable means of providing antenna relocation during exterior sandblasting and recoating.

As both Utility Services and MW Cole provided satisfactory replies to our follow-up questions, and that Utility Service Co. Inc. was the low bidder, we recommend that the Town of Waterford award this contract to **Utility Service Co., Inc** for the bid price of **\$990,900.00**.

If you or other Town of Waterford officials have any questions or comments regarding our review of the bid, I am at your service.

Very truly yours,
Haley Ward, Inc.

James E. Ericson, P.E.

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned,

Utility Service Co., Inc. as Principal, and
Travelers Casualty and Surety Company of America

as Surety, are hereby held and firmly bound unto The Town of Waterford as owner in the penal sum of Ten Percent (10%) of the Amount Bid for the payment of which, well and truly to be made, we hereby jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns.

Signed this 30 day of May, 2023

The condition of the above obligation is such that whereas the Principal has submitted to The Town of Waterford a certain bid, attached hereto and hereby made a part hereof to enter into a contract in writing for the

PROJECT : Bid#23-121 Fargo Road Water Tank Recoating and Improvements

NOW, THEREFORE,

- A. If said Bid shall be rejected, or in the alternate,
- B. If said Bid shall be accepted and the Principal shall execute and deliver a contract in the Form of Contract attached hereto, properly completed in accordance with said Bid, and shall furnish a bond for his faithful performance of said contract, and for the payment of all persons performing labor or furnishing materials in connection therewith, and shall provide the required evidence of insurance,

THEN, this obligation shall be void, otherwise the same shall remain in force and effect; it being expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall, in no event, exceed the penal amount of this obligation as herein stated.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no way impaired or affected by any extension of the time within which the Owner may accept such Bid; and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, the Principal and the Surety have hereunto set their hands and seals, and such of them as are corporations have caused their corporate seals to be hereto affixed and these presents to be signed by their proper officers, the day and year first set forth above.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the 30th day of June, 2026

Anna P. Nowik
 Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of each of the Companies, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, Kevin E. Hughes, the undersigned, Assistant Secretary of each of the Companies, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 30 day of May, 2023

Kevin E. Hughes

Re: **Utility Service Co. Inc**
Bid#23-121 Fargo Road Water Tank Recoating and Improvements

To Whom It May Concern:

It has been the privilege of Travelers Casualty and Surety Company of America ("Travelers")¹ to provide surety bonds for **Utility Service Co. Inc.** several years. During that time they have completed and we have bonded projects for a wide variety of owners, affording continued surety credit for bonded obligations.

This letter shall serve as intent of **Utility Service Co. Inc.** surety's support in ability to bond the entire construction cost of the project referenced above.

Please note that the decision to issue performance and payment bonds is a matter between **Utility Service Co. Inc.** and Travelers, and will be subject to our standard underwriting at the time of the final bond request, which will include but not be limited to the acceptability of the contract documents, bond forms and financing. We assume no liability to third parties or to you if for any reason we do not execute said bonds.

If you have any questions or need any additional information, please do not hesitate to contact me.

Sincerely,

Travelers Casualty and Surety
Company of America

Brent Wagner

COMPLETE AND RETURN

BID #: Bid#23-121

BID TITLE FARGO ROAD WATER TANK RECOATING

BID FORM

TO: Purchasing Agent
Town of Waterford Purchasing Department
15 Rope Ferry Road, Waterford CT 06385

I have received the bid documents entitled Bid#23-121 FARGO ROAD WATER TANK RECOATING

and dated May 31, 2023

I have received Addenda dated as follows: (1) 5/12/2023 (2) 5/23/2023

I have considered and included the provisions of the bid documents noted above in my bid. I have examined the bid documents and I submit the following BID:

In submitting this bid, I agree:

1. To hold my bid open until 90 days after the date on which bids are due.
2. To enter into and execute a contract provided by the Town, without alteration by me, if awarded on the basis of this bid, according to the contract form provided by the Town of Waterford.
3. To accomplish the work in accord with the Bid Specifications and Contract Documents and to the extent that there is a conflict between the provisions of any bid documents, the order of precedence shall require me to provide the item or service that is of the greater value or benefit to the Town of Waterford.
4. To begin the work in strict accordance with the project schedule or the Notice to Proceed issued by the Town and to complete the work within 120 calendar days following Owner's date of Notice to Proceed.
5. The undersigned submits a bid bond in the sum of Ten Percent of Principal's Bid dollars (\$ 10%) 5% of Base Bid, which sum is agreed shall become the sole and exclusive property of the Owner as liquidated damages to the Owner if the undersigned fails to execute a contract in conformity with the Bid Form and to furnish surety bonds and insurance policies in accordance with the General Conditions after due notification has been given.

6. I acknowledge that the Town of Waterford reserves the right to accept or reject any or all bids, alternates, options, or proposals; to waive any technical defect in a bid or part thereof submitted, and to accept the bid deemed by the Town to be in the best interest of the Town of Waterford.

Lump sum price for equipment, material, and labor:

\$ 999,900

\$ Nine Hundred Ninety-Nine Thousand Nine Hundred Dollars and Zero Cents

WRITTEN AMOUNT

16. Addenda and Interpretations

All questions about the meaning or intent of the Contract Documents are to be directed to the Town's Purchasing Agent. Interpretations or clarifications considered necessary by the Owner in response to such questions will be issued by Addenda delivered to all parties recorded by the Owner as having received the Bidding Documents. Questions received less than seven days prior to the date for opening of Bids may not be answered. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

Addenda will be issued to modify the Bidding Documents as deemed advisable by the Owner.

17. Substitution Clause

Wherever in the Plans and Specifications any item of equipment or material is designed by reference to a particular brand, manufacturer, or trade name, it is understood that an approved equal product, acceptable to the OWNER, may be substituted by the BIDDER or the CONTRACTOR.

18. Retainage

The Town of Waterford reserves the right to retain 5% in addition to the other retainages required, of the final contract price for a period not to exceed six (6) months from the date of final acceptance of the project.

19. Laws and Regulations

The bidder's attention is directed to the fact that all applicable Federal and State law, municipal ordinances, and the rules and regulations of all authorities having jurisdiction over construction of the project shall apply to the contract throughout, and they will be deemed to be included in the contract the same as though herein written out in full.

20. List of Utilities in the Area

Attention is called to the fact that the following Utility Companies have facilities in the area: The Connecticut Light and Power Company dba Eversource Energy, Lightower Fiber Networks I, LLC dba Crown Castle Fiber, The Southern New England Telephone Company dba Frontier Communications of Connecticut, Comcast of Connecticut, Inc., City of New London Department of Public Utilities – Water and Sewer, and Waterford Water Pollution Control Authority.

Information and data reflected in the Contract Documents with respect to Underground Facilities at or contiguous to the site is based upon information and data furnished to Owner by owners of such Underground Facilities or others, and Owner does not assume responsibility for the accuracy or completeness thereof unless it is expressly provided otherwise in the Supplementary Conditions.

The Contractor should acquaint itself with and adhere to the regulations of those utilities which are in the area of this Contract.

When requested by the Contractor, all underground utilities will be located and marked on the surface by the controlling utility company at no cost to him. Contractor will be responsible for notifying the Utility clearinghouse, "Call-Before-You-Dig" 48 hours prior to any excavation, to allow for the location of the existing utilities by controlling Utility Company.

21. Sales Tax

Under the terms of the regulations referring to CONTRACTORS and SUBCONTRACTORS, issued by the STATE TAX COMMISSION in administration of the STATE Sales and Use Tax, to which the BIDDER is referred, the CONTRACTOR may purchase materials or supplies to be consumed in the performance of this contract without payment of tax and shall not include in his bid nor charge any use or sales tax thereon.

22. Site Investigation and Conditions Affecting the Work

- A. The Contractor acknowledges that it has taken steps reasonably necessary to ascertain the nature and location of the work, and that it has investigated and satisfied itself as to the general and local conditions which can affect the work or its cost, including but not limited to:
 - 1. Conditions bearing upon transportation, disposal, handling, and storage of materials;
 - 2. The availability of labor, water, electric power, and roads;
 - 3. Conditions at the site;
 - 4. The conformation and conditions of the ground; and
 - 5. The character of equipment and facilities needed preliminary to and during work performance.
- B. The Contractor also acknowledges that it has satisfied itself as to the character, quality, and quantity of surface and subsurface materials or obstacles to be encountered insofar as this information is reasonably ascertainable from an inspection of the site, including all exploratory work done by the Town, as well from the drawings and specifications made a part of this contract. Any failure of the Contractor to take the actions

described and acknowledged in this paragraph will not relieve the Contractor from responsibility for estimating properly the difficulty and cost of successfully performing the work, or for proceeding to successfully perform the work without additional expense to the Town.

- C. The Town assumes no responsibility for any conclusions or interpretations made by the Contractor based on the information made available by the Town. Nor does the Town assume responsibility for any understanding reached or representation made concerning conditions, which can affect the work by any of its officers or agents before the execution of this contract, unless that understanding or representation is expressly stated in this Contract.
- D. The Contract Documents contain the provisions required for the construction of the project. Information obtained from an officer, agent or employee of the OWNER or any other person shall not affect the risks or obligations assumed by the CONTRACTOR or relieve him from fulfilling any of the conditions of the CONTRACT.

23. Permits

The Contractor must obtain all necessary construction and building permits.

24. Work Area

Construction will be confined to the immediate work area only. Trespass on property other than Town property or easements acquired by the Town over private property for the project will be only by written permission of the property owner only.

25. Change Orders

Any deviations from, additions to, or deductions from either scope of work or contract price shall be submitted by the Contractor to the Town in the form of a contract change order. The Town must approve this contract change order before said deviations, additions, or deductions shall be enacted. The specific procedures applicable to change orders are set forth in the General Conditions of the Contract Documents.

Further, all changes in scope of work involving unit price items shall be governed by the unit price indicated by the Contractor on the Base Bid Form.

26. Wages

Bidder is directed to the Supplementary Conditions of the Contract Documents for wage rate scales and legislation applicable to this contract.

27. Unbalanced Bids

An unbalanced bid is one in which the contractor's unit prices are:

- a. Significantly higher or lower than the Engineer's estimate.
- b. "Front loaded" so contractor receives a disproportionate payment for work done during the early stages of a project.
- c. Token bid prices (i.e. penny unit bids).

While it is often impossible to designate precisely the dividing line between a balanced bid and an unbalanced bid, contractors should be aware that the Town may regard the unbalancing of a bid as so extreme, undeniable, or detrimental to the interests of the Town that it may question the contractor about the apparent unbalancing of the bid proposal, and, if the contractor cannot provide a satisfactory explanation of the apparent unbalancing, and if the Town's assessment of the risk to itself is unacceptable, the Town may reject the bid as nonresponsive.

28. OSHA Violations

In accordance with Connecticut General Statute Section 31-57b, no contract shall be awarded to a bidder if it is determined that the bidder (person or firm) has been cited for three (3) or more willful or serious violations of any occupational safety and health act or of any standard, order or regulation promulgated pursuant to such act during the three (3) year period preceding the date of bid opening.

29. Enumeration of the Proposed Contract Documents

Copies of the proposed Contract Documents have been made available to the bidder and consist of the documents enumerated below. The successful bidder selected by the Town shall be expected to enter into the contract documents with the Town. If a bidder is unwilling or unable to meet any of the contract terms, the bidder must disclose that inability or unwillingness in its proposal and the reason(s) therefore. The Town reserves the right to modify or include other provisions in its contracts as the Town, in its sole discretion, deems necessary or advisable.

- A. Form of Contract
- B. AIA Document A201-2017, General Conditions of the Contract for Construction, unless otherwise stated below, as amended (the "General Conditions");

- C. Supplementary Conditions
- D. Special Provisions
- E. Drawings: Refer to Section 00-004-1

PROPOSAL
Fargo Water Tank and Recoating Improvements
Town of Waterford

Proposal of Utility Service Co., Inc. hereinafter called
"BIDDER"

*a corporation of the State of *Georgia*

*a partnership, or

*an individual doing business as

To the Town of Waterford, Connecticut

Gentlemen:

The undersigned hereby declares that no person or persons other than those named herein are interested in this proposal or in the Contract proposed to be taken; that it is made without any connection with any other person making any proposal for the same work, and is in all respects fair and without collusion or fraud; that no person acting for or employed by the Town of Waterford is directly interested therein, or in the supplies or works to which it relates, or in any portion of the profits thereof; that it is understood that the Town, its agents and employees are not to be in any manner held responsible for the accuracy of, or bound by, the estimates or borings or plan of borings relative to the work and appearing on plans or in the foregoing notice; and that all such estimates, etc., are to be considered solely for the purpose of filling out and comparing the several proposals.

The undersigned further declares that he has carefully examined the Information For Bidders, Contract documents, including the Plans and Specifications, and has inspected the site and will contract to provide all necessary tools, apparatus and implements, freight, cartage, and expense, and to do all the work and furnish all the materials necessary in the manner and upon the conditions specified and upon the following terms at the prices specified on the following pages.

The undersigned agrees to furnish satisfactory bonds and insurance as required by the General Conditions, the Information for Bidders and by the Supplementary Conditions, and to execute within 30 days after notice of the award, a formal contract with the Town of Waterford for the fulfillment of this proposal, and it is agreed that in case of failure on the part of the undersigned to do so, the certified check or bid bond deposited herewith shall be forfeited to the Town of Waterford as liquidated damages for such failure.

BIDDER hereby agrees to commence work under this contract on or before a date to be specified in written NOTICE TO PROCEED of the OWNER and to fully complete the project in strict compliance with the Contract Documents within 120 consecutive calendar days thereafter as stipulated in the specifications. BIDDER further agrees to pay as liquidated damages, the sum of \$1,000 for each consecutive calendar day thereafter as hereinafter provided in Paragraph 15 of the Information for Bidders.

BIDDER acknowledges receipt of the following addendum:

(1) 5/12/2023 (2) 5/23/2023

The undersigned further agrees, in case of a corporation or fictitious trade name, that an acceptable certificate will be filed showing the proper officer or person authorized to sign said contract.

Amounts are to be shown in both words and figures. In case of discrepancy, the amount shown in words will govern.

The unit prices shall include all labor, materials, bailing, shoring, removal, overhead, profit, insurance, etc., to cover the finished work of the several kinds called for.

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any formalities in the bidding.

The bidder agrees that this bid shall be good and may not be withdrawn for a period of 90 calendar days after the scheduled closing time for receiving bids.

The bid Security attached in the sum of:

Ten Percent of Principal's Bid dollars
(\$ 10%)

is to become the property of the Owner in the event the Contract and Contract Bonds are not executed within the time above set forth, as liquidated damages for the delay and additional expense to the Owner caused thereby.

**Fargo Water Tank and Recoating Improvements
WATERFORD, CONNECTICUT**

Bid Form: Refer to Section 00-300-1 and 00-300-2

The undersigned offers the following information as evidence of his qualifications to perform the work as bid upon according to all requirements of the Plans and Specifications.

1. Have been in business under present business name: 30+ years.
2. Ever failed to complete any work? **No**
3. List the more important contracts recently completed by you, stating approximate cost for each, and the month and year completed.

COMPANY PROFILE

As the largest provider of tank asset maintenance programs for the potable water industry within the United States, **Utility Service Group Water Solutions, LLC (USG)** provides water and wastewater utility clients with specialized programs and valuable services in order to assist them with the suitable management of their critical assets. USG's goal is to provide the highest value of services possible to allow our many valued clients to invest both capital and operating funds for the maximum benefit of their critical water distribution system assets and to build a long-standing partnership—ultimately ensuring the successful maintenance of their critical water distribution system assets.

From a contractual standpoint—we are still currently operating under the legal entity of **Utility Service Co., Inc.** Utility Service Co., Inc. served as our company name before changing to Utility Service Group Water Solutions, LLC.

With major service centers strategically located across the United States to provide dependable and efficient response times to our valued clients, USG's local presence and highly qualified work crews deliver the high-quality results expected by our clients. Our team has extensive project experience and specialized knowledge of the characteristics and conditions associated with water distribution systems and infrastructure of the United States—ensuring that all water distribution system assets are both protected and maintained on an ongoing and consistent basis.

Our background and experience with all tank asset styles and sizes allow us to comfortably complete complex and large water storage tank renovation projects. USG protects more than 8,000 assets nationally with full-service maintenance and asset management programs. These maintenance programs are on-going and center on establishing long-term partnerships with our clients—ultimately utilizing a consultative philosophy-based approach to identifying and solving any issues that may arise.

Additionally, we have expanded both our capabilities and resources with the additional resources, advanced technologies, information systems, and strategic solutions that are necessary to address the current challenges facing water and wastewater utilities. Leveraging our extensive knowledge and experience, we are able to offer even greater innovative solutions to our clients. As part of our mission to address critical water resource and infrastructure challenges, we deliver innovative and advanced service solutions to minimize capital and operational expenses, improve water distribution system operations and performance, extend the useful life of our clients' critical water utility assets, and ultimately improve water quality.

COMPANY OWNERSHIP HISTORY

USG's presence within the United States dates back to the founding of its predecessor company in 1963. Since then, we have grown into one of the largest and most technologically advanced water solution providers in the United States.

We were initially formed in 1991 and—in 2008—became a wholly-owned subsidiary of SUEZ North America Inc. In 2022, SUEZ North America Inc. became wholly-owned by Veolia North America. On December 31, 2022, Veolia signed an agreement with **Turnspire Capital Partners (Turnspire)** to

acquire USG—which closed in February of 2023. Turnspire is a private investment firm focused on acquiring high-quality business that have reached strategic, operational, and financial inflection points and ultimately stand to benefit from a hands-on, operationally focused approach.

USG and Turnspire both share a commitment to offer safe and sound solutions to our clients. Our multifaceted performance—combining the strengths of the organizations—is what will matter in the long run to successfully service our clients, meet all quality expectations, and establish a long-term partnership that will benefit our valued clients for many years to come. We are truly a world leader in smart, sustainable resource management, and we provide solutions that enable clients to optimize their critical resources and strengthen both environmental and economic performances in line with regulatory standards.

FINANCIAL STABILITY

With over 50 years of industry experience, USG has the financial strength and stability—as well as access to capital—that is required to successfully conduct the associated work. Also, we have never defaulted on a project—nor have we failed to complete a project.

We have successfully worked with thousands of municipal and industrial water and wastewater utility clients on critical infrastructure issues—providing cost-effective solutions to our clients in order solve countless water quality and compliance issues. We have the capability to adequately address the need for overdue maintenance investment and all infrastructure renovations. Our creative programs and innovative pricing structures have allowed our clients to tackle significant water and wastewater infrastructure problems—while also minimizing the financial burden for their communities, customers, and taxpayers.

BANKING, BONDING & COMPANY PERSONNEL

USG—a C-Corporation—directly employs more than 470 professionals dedicated to managing and maintaining water storage tanks. Our collaborative teams include highly qualified experts with vast experience in asset management, project management, and technology development.

Shane Albritton – Secretary

KEY PERSONNEL

Jonathan Cato – Chief Operating Officer
David Forrester – Vice President Tank Services & Water Quality
Rob Weaver – Director Environmental Health & Safety
Apurv Aggarwal – Director Estimating & Bid Department

EMPLOYEES

- Number of direct employees: 471
- Number of Professional Engineers on staff: Six (6)
- Number of Certified Welders on staff: 42
- Number of independent subcontractors: 96+ nationwide

INSPECTORS

- Number of NACE-Certified Inspectors on staff: 70+
- Number of SSPC-Certified Inspectors on staff: 48
- Average years of experience for an inspector: 15 years
- Inspectors are NACE-certified, in-house employees

WASHOUT CREWS

- Number of washout crews: 30+
- Average number of people on a washout crew: Three (3)
- Average years of experience for a washout crew member: Nine (9) years
- Washout crew members are in-house employees

PAINTING CREWS

- Number of painting crews: 120+
- Average number of people on a painting crew: 4-5 (small jobs); 6-10 (large containment projects)
- Average years of experience for a painting crew member: Five (5) years
- Average years of experience for a foreman or subcontracting company owner: 15-20 years
- Painting crew members are both in-house employees and independent subcontractors

REPAIR & SERVICE CREWS

- Number of repair/service crews: 30+
- Average number of people on a repair/service crew: Minimum of three (3) at all times
- Average years of experience for a repair/service crew member: Ten (10) years
- Repair/service crew members are both in-house employees and independent subcontractors

ASSOCIATED EQUIPMENT

On average, USG's specialized service centers perform more than 1,200 major water storage tank renovations on an annual basis—including approximately 100+ lead abatement projects. Both the scale and magnitude of certain water tank projects require significant resources, and the availability of vast equipment allows USG to complete any size project efficiently and with the high-quality results that are expected by our many valued clients.

EQUIPMENT	QUANTITY
40,000 CFM Dust Collection	Ten (10)
Titan Industrial Vacuum Systems	Eight (8)
T.E.P.E. Containment Systems	19
Decontamination Clean-Up Units	Seven (7)
22 tons Bulk Abrasives Transport Trailers	40+
Rail Cars for Bulk Abrasives Transport	Nine (9)
Road Tractors	15
Service Trucks	100+
Steel Grit Blast Units	Seven (7)
Robotic Blast Units	Five (5)

SERVICE CENTERS

All tank maintenance services will be conducted by personnel that is trained and qualified to perform all maintenance, repairs, and painting services—in accordance with the project specifications.

USG has 11 service centers strategically located throughout the United States to serve clients on a timely basis. The locations of USG's service centers include: Arkansas, California, Florida, Georgia, Illinois, Indiana, Kansas, Massachusetts, North Carolina, Ohio, and Texas. Our service center crews manage and maintain over 8,000 water distribution system assets for over 6,000 industrial and municipal clients nationwide. Our experienced teams include: 120+ paint crews, 30+ field service crews, 40+ certified welders, and other qualified support teams.

INSURANCE REQUIREMENTS

Both the magnitude and scope of a major renovation project—as well as the number of crews and staff—require a true necessity for considerable insurance resources. USG utilizes one (1) of the most reputable names in the insurance industry—AON. AON serves as the world's leading insurance broker and risk advisor.

The USG insurance coverage policy limits are as follows:

- General Liability = \$2M per occurrence
 - General Aggregate = \$4M per occurrence
 - Auto Liability = \$2M each accident
 - Professional Liability = \$2M per claim
 - Pollution Liability = \$15M per claim
 - Workers' Compensation = statutory limit
- Higher-level insurance policy limits can be provided upon request.

ASSOCIATION FOR MATERIALS PROTECTION & PERFORMANCE

(AMPP)

The Association for Materials Protection and Performance (AMPP) is the world's leading organization focused on the protection of assets and performance of materials. The AMPP was created when the National Association of Corrosion Engineers (NACE) and Society for Protective Coatings (SSPC) united after more than 145 years of combined experience in corrosion control and protective coatings. The merger between NACE and SSPC was formed to create a unified voice for the corrosion control and protective coating industries. The AMPP combines the world's leading corrosion prevention and protective coatings organizations under one (1) umbrella. Today, the AMPP is active in more than 130 countries and has more than 40,000 members across the globe. The AMPP is headquartered within the United States—with offices in Houston, TX, and Pittsburgh, PA. Additional AMPP offices are located in China, Brazil, Malaysia, Saudi Arabia, and the United Kingdom—as well as a training center in Dubai.

USG has more NACE-Certified Inspectors than any other water, wastewater, or tank company in the United States.

USG WATER
SOLUTIONS

SAFETY, HEALTH, & QUALITY ASSURANCE

Workplace safety is a top priority for us, and we are committed to protecting all of our employees, clients, and contractors from danger and harm. Safety metrics are one (1) of the main ways we measure our success as a company. We continue to enhance safety processes—as well as training processes—and we take action every single day to protect the lives and health of all USG employees, subcontractors, and clients—as well as the populations among which we work. We ultimately aim to be a leader in safety, health, and quality assurance, and we continuously deploy ambitious action plans to fulfill this goal.

The action plans deployed on our sites have enabled a continuous reduction of USG's accident frequency rate (AFR). Over the last ten (10) years, USG has experienced an exceptional reduction in regard to our AFR—as well as a significant decrease in the overall severity of accidents. We strive to continuously take action in regard to reducing this rate on a yearly basis.

USG shares this ambition for a strong health and safety culture with all of our suppliers, clients, and subcontractors—even beyond our own direct activities. Currently—as an active member of the Institute for an Industrial Safety Culture (ICSI)—USG participates in work-groups and helps to develop tools for other companies and public authorities that ultimately share the same ambition as USG to improve the health and safety culture across the entire organization.

To create an integrated health and safety culture and attain our ultimate goal of "zero (0) serious and fatal accidents", we have initiated—and continue to deploy—a health and safety policy that is based on four (4) areas, including:

1. Control of Major Risks
2. Committed Managers for a Proactive Health & Safety Culture
3. Develop a Fair/Participative Health & Safety Culture
4. Training to Develop Health & Safety Behavior

USG SAFETY & HEALTH PROGRAM

The USG Safety & Health Program is a 300+ page printed document. It is a standard policy to protect USG employees, subcontractors, and clients with safe work practices. We manage all work in a safe, orderly, and effective manner. We also adhere to all OSHA confined space requirements. Any employee working inside a water storage tank—defined as a confined space by OSHA—is fully trained with these procedures and will abide by all applicable confined space regulations. We also adhere to all applicable OSHA confined space protocols and requirements.

pertaining to the monitoring of internal atmospheres. Prior to a crew member entering a confined space, the internal atmosphere is thoroughly tested using a calibrated direct-reading instrument that tests for the oxygen content, flammable gasses and vapors, and potential toxic contaminants in the air—in that specific order. It is a standard USG policy that no hazardous atmosphere is permitted in a space if an employee is inside that space. The USG crews also follow continuous forced air ventilation procedures by constantly monitoring the internal atmosphere in any confined space throughout the course of work.

SAFE WORK PLANNING

We utilize a formal hazard identification and analysis system—including both safe work plans and safe work planning processes—that engages all employees in systematically identifying routine and non-routine health and safety hazards. This process evaluates and prioritizes the potential risks of each task and provides recommendations on the means, methods, sequences, and controls that are required to prevent any potential safety hazards. In order for this process to be effective, the direct participation and collaboration of all USG supervisors and employees is required.

PERSONAL PROTECTIVE EQUIPMENT

Prior to the commencement of any work, we conduct a Personal Protective Equipment (PPE) Hazard Assessment. The hazard assessment is performed for all routine tasks—as well as any expected non-routine tasks. It identifies any potential hazards associated with these tasks and the required selection of the proper PPE. The major categories of PPE that appear on this hazard assessment include the head, hands, feet, face, eyes, ears, and body—as well as respiratory.

The types of PPE that are available to our employees include a standard USG work uniform, a variety of different hard hats, safety glasses and goggles that include protective side shields on each side, face shields, gloves, safety footwear, full body harnesses, high-visibility vests, coveralls, personal flotation devices, and ventilation and hearing protection. USG employees are required to always wear their PPE and follow safety procedures when conducting any maintenance work or related services.

ENVIRONMENTAL HEALTH & SAFETY TRAINING

We manage an environmental health and safety (EH&S) training program with a separate, distinct plan that addresses the methods USG will utilize to:

- Assess employee training needs
- Evaluate and decide upon the most effective training methods
- Schedule and host training
- Maintain training records

Training is mandatory for all field personnel, sales personnel, and management personnel. USG's formal, ongoing, and employee-specific EH&S training covers numerous topics on safety in regard to maintenance work and related services—including:

- | | |
|------------------------|---------------------------|
| ▪ Lockout/Tagout | ▪ Electrical Safety |
| ▪ Hazard Communication | ▪ Chemical Spill Response |
| ▪ Confined Spaces | ▪ Defensive Driving |

USG also utilizes a variety of other avenues to ensure that safety is constantly at the forefront of all employee practices, including:

1. **Daily Safe Work Planning Sessions:** Safe work planning takes place with Supervisors and includes discussions on both the task hazards and controls that are necessary to prevent injuries.
2. **Weekly Staff Tailgate Training:** We provide a 52-week Safety Tailgate Manual of pre-printed training materials that are used each week in our smaller departments and shift meetings.
3. **New Employee Orientation & Training:** This type of training is offered over the course of a new employee's first 90 days of employment with USG and prior to the new employee starting work.
4. **Injury Alerts & Shared Lessons Learned:** USG employees routinely receive injury alerts prompted by accidents or near-misses to immediately create an awareness amongst all personnel and avoid any future instances of accidents.

ADDITIONAL SAFETY TRAINING

We work in rather dangerous environments and recognize that safety is critical to both the success and well-being of USG employees. At USG, safety serves as the management team's top priority, and we have proven safety professionals that are dedicated to implementing our safety standards and practices.

- **Mr. Robert Weaver**—Director of Environmental Health, Security, & Safety (EHS&S)—has over 15 years of experience and oversees all environmental health, security, and safety operations.

When necessary, we engage **The Lovelace Group** for any project consulting or assistance in the annual implementation of our comprehensive safety training program. It is a standard policy to protect our employees and clients with safe work practices—while also managing all materials in a safe, effective, and orderly manner. Any employee that is climbing or working on a tank is required to attend our 40-hour annual training program.

QUALITY ASSURANCE

All work, surface preparations, and coatings applied are completed in accordance with:

- Manufacturer's Recommendations
- Occupational Safety & Health Administration (OSHA) Regulations
- American Water Works Association (AWWA) D100 & D102 Specifications
- National Association of Corrosion Engineers (NACE) Standards
- Society for Protective Coatings (SSPC) Standards
- National Sanitation Foundation (NSF) Standard 61 Requirements
- American National Standards Institute (ANSI) Standard 61 Requirements

Work will be completed in adherence with applicable federal and state OSHA, AWWA, NACE, SSPC, NSF, and ANSI standards—as well as all State rules and regulations pertaining to potable water storage tanks.

ISO 9001:2015 CERTIFICATION

Additionally, we are very proud to announce that we were awarded the **ISO 9001:2015 Certification** (Certificate No.: **US014911**) from Bureau Veritas. The certificate affirms that USG's operation and quality management systems adhere to the requirements set forth by the International Organization for Standardization (ISO). The ISO 9001:2015 Certification also validates that we take a systematic approach to managing operational processes and activities in order to consistently satisfy our clients' quality expectations—as well as all contractual requirements for the rehabilitation and maintenance services that we provide.

Many organizations will get certified to this higher standard in order to demonstrate their ability to consistently provide products and services that meet client, statutory, and regulatory requirements. Implementing this type of Quality Management System (QMS) assists organizations in consistently meeting client requirements, enhancing client satisfaction, and meeting business objectives—while also addressing all risks and opportunities. The ISO 9001:2015 QMS standard is based on a variety of quality management principles, including: Client Focus, Leadership, the Engagement of People, Process Approach, Improvement, Evidence-based Decision Making, and Relationship Management.

This ISO 9001:2015 Certification is granted by accredited certification bodies—or registrars—that will audit an organization at planned intervals to confirm conformance to the ISO 9001:2015 standard. This international standard specifies a collection of necessary requirements for an ISO 9001:2015 Certified QMS—which are contained within seven (7) clauses, including:

1. Context of the Organization
2. Leadership
3. Planning
4. Support
5. Operation
6. Performance Evaluation
7. Improvement

TANK PROJECT REFERENCES 2017**West Memphis, AR**

Project: Mid-America 1,000,000 Gallon Water Storage Tank Rehabilitation

Engineer: Amanda Hicks – Water/Sewer Engineer (870) 636-5411

Description: 1.0MG EST; Interior SP10/3 Coats; Exterior SP6/3 Coats (Hydroflon); Typical repairs

Contract Amount: \$526,100

Completed: December 2017

Albertson Water District Roslyn Heights, NY

Engineer: Peter J. Connell; (516) 364-9890 ext. 3100

Description: 1.5MG GST; Interior SP10/2 Coats; Exterior SP10/3 Coats

Contract Price: \$1,799,500

Completed: December 2017

Town of East Brunswick, NJ

Engineer: Lou Neely; (732)390-6860

Description: 1.5MG Hydropillar; Interior SP10/2 Coats; Exterior SP10/3 Coats; Containment

Contract Price: \$1,500,000

Completed: December 2017

Town of Greenburgh, NY

Engineer: John Devany; (914) 989-1915

Description: 1.0MG Hydropillar; Interior SP10/2 Coats; Exterior PW/2 Coats

Contract Price: \$1,300,000

Completed: December 2017

Albemarle, NC

Engineer: LKC Engineering, PLLC - Adam Kiker (910) 420-1437

Description: 200,000-Gallon EST; Interior SP10/3 Coats; Exterior SP6/3 Coats; Typical repairs

Contract Amount: \$262,000

Completed: December 2017

Palmyra, IN

Engineer: Strand Associates Inc. - Anthony Akles (812) 372-9911

Description: 75,000-Gallon EST; Interior SP10/3 Coats, Exterior PW/2 Coats; Typical repairs

Contract Amount: \$148,400

Completed: December 2017

Crane County Water District, TX

Engineer: Parkhill Smith & Cooper - Blake McColloch (432) 697-1447

Description:

Two (2) 500,000-Gallon GST's; Interior SP10/3 Coats; Exterior SP6/3 Coats; Containment with lead paint removal; Typical repairs

Four (4) 1.0MG GST's; Interior SP10/3 Coats; Exterior PW/2 Coats; Typical repairs

One (1) 2.0MG GST; Interior SP10/3 Coats; Exterior PW/2 Coats; Typical repairs

Two (2) 50,000-Gallon EST's; Interior SP10/3 Coats; Exterior PW/2 Coats; Typical repairs

Contract Amount: \$1,998,593

Completed: September 2017

Gervais, OR

Engineer: Tetra Tech, Inc. - Steven Kraushaar (503) 598-2525

Description: 300,000-Gallon GST; Interior SP/3 Coats; Exterior Overcoat SP3/2 Coats; Beam Replacement; Misc. Steel Repairs

Contract Amount: \$256,250

Completed: August 2017

Stucker Fork Conservancy District, IN

Engineer: Midwestern Engineers Inc. - Bryce Anderson (812) 295-2800

Description: 500,000-Gallon EST; Interior SP10/3 Coats, Exterior PW/2 Coats; Typical repairs

Contract Amount: \$188,800

Completed: July 2017

City of Youngstown, OH

Engineer: Dan Blakely; (330) 743-5340

Description: 1.5MG STP; Interior SP10/2 Coats; Exterior SP10/3 Coats; Containment

Contract Price: \$1,222,638

Completion: July 2017

Simpson County Water District, KY

Project: Repair and Repaint of Salmons Tank

Engineer: Ryan Leisey - Manager of Engineering and Construction (270) 842-0052

Description: 500,000-Gallon EST; Interior SP10/3 Coats, Exterior PW/2 Coats; Typical repairs

Contract Amount: \$181,700

Completed: March 2017

Fayetteville, AR

Engineer: GARVER - Chris Buntin (479) 527-9100

Description:

Baxter 5.0MG GST; Interior SP10/3 Coats, Exterior PW/2 Coats; Numerous typical repairs

Mt. Sequoyah 250,000-Gallon EST; Interior SP10/3 Coats, Exterior PW/2 Coats; Numerous typical repairs

Contract Amount: \$1,133,510

Completed: January 2017

West Baton Rouge Parish Natural Gas & Water System, LA

Engineer: Owen & White, Inc. - Roy Waggenspack (225) 926-5125

Description: Westport 150,000-Gallon EST; Interior SP10/3 Coats; Exterior SP6/3 Coats
Containment; Repairs

Contract amount: \$241,600

Completed: January 2017

Newton County, GA

Engineer: Carter & Sloope - Chase West (706) 769-4119

Description: Salem Road 1.0MG EST; Interior Wet SP5/2 Coats; Interior Dry PW/1 Coat;
Exterior SP6/3 Coats Containment; Repairs

Contract amount: \$719,189

Completed: January 2017

Sioux City, IA

Engineer: DGR Engineering - Joy Vogel (712) 472-2531

Description: Morningside Water 2.0MG EST; Interior SP10/3 Coats; Exterior SP6/3 Coats;
Containment; Repairs

Contract amount: \$1,067,475

Completed: January 2017

TANK PROJECT REFERENCES 2016

East Brunswick Water Authority, NJ

Engineer: Lou Neely; (732) 390-6860

Description: 1.0MG Fern Road Hydropillar; Interior SP10/2 Coats; Exterior SP10/3 Coats;
Containment

Contract amount: \$1,200,000

Completed: December 2016

Burbank, OK

Engineer: Cowan Group Engineering - Michael Taylor (405) 463-3369

Description: 50,000-Gallon EST; Exterior SP6/3 Coats; Containment and Lead coating removal;
Typical repairs

Contract Amount: \$162,730

Completed: October 2016

Orangeburg, SC

Engineer: AECOM/URS Corporation - Nathan Ward (803) 254-4400

Description:

Bolentown 250,000-Gallon EST; Exterior PW/2 Coats (Hydroflon); Interior SP10/3 Coats;
Typical repairs and logos

Limestone 300,000-Gallon EST; Exterior PW/2 Coats (Hydroflon); Interior SP10/3 Coats;
Typical repairs and logos

Clearwell Concrete Tank - 217' x 161'; Exterior PW/3 Coats

Contract Amount: \$444,800

Completed: October 2016

Strother Field Airport & Industrial Park (Winfield, KS)

Engineer: Smith & Oakes - Chris Meinen (620) 442-4756

Description: Airport 200,000-Gallon EST; Interior SP10/3 Coats; Exterior PW/2 Coats; Logo

Contract Amount: \$66,300

Completed: September 2016

City of Salem, MA

Project: Gallows Hill Reservoir Rehabilitation

Engineer: Infrastructure Tech., Inc. - Joe Harris (203) 530-0684

Description: 5.3MG Hydropillar; Interior SP10/2 Coats; Exterior SP10/3 Coats

Contract Price: \$1,555,600.00

Completion: July 2016

Wynne, AR

Engineer: Crist Engineers - Les Price (501) 664-1552

Description:

High School 200,000-Gallon EST; Interior SP10/3 Coats; Exterior SP10/3 Coats (Hydroflon);

Containment, and Lead removal; Numerous typical repairs

North 300,000-Gallon Elevated Tank; Interior SP10/3 Coats; Exterior SP6/3 Coats (Hydroflon);

Containment; Numerous typical repairs

Contract Amount: \$557,300

Completed: July 2016

Bogue Banks Water Corp., NC

Project: Elevated Storage Tank #2 Corral Removal and Tank Repainting Project

Engineer: Seola Hill - Executive Director (252) 354-3307

Description: 500,000-Gallon PED; Interior wet; SP10/3 Coats; Interior dry SP6/2 Coats; Exterior SP6/4 Coats (Hydroflon); Containment and Lead removal; Numerous typical repairs

Contract Amount: \$507,100

Completed: May 2016

City Water and Light (Jonesboro, AR)

Engineer: Robert Garland; (870) 219-5234

Description: Madison Strawn 1.5MG EST; Interior SP10/3 Coats; Exterior SP10/3 Coats;

Containment and Lead removal; Numerous typical repairs

Contract Amount: \$625,600

Completed: March 2016

City of Lumberton, NC

Engineer: Anderson Engineering and Associates, PA - Kevin Howell (910) 671-9530

Description:

I-95 1.0MG Hydropillar; Interior SP10/3 Coats; Exterior SP6/3 Coats Containment; Repairs

NC Hwy 72 1.0MG Hydropillar; Interior SP 10/3 Coats; Exterior SP6/3 Coats Containment; Repairs

Contract Value: \$1,335,090

Completed: September 2016

City of Kite, GA

Engineer: Statewide Engineering, Inc. - Mark Dill (912) 384-1723

Description: 100,000-Gallon EST; Interior SP10/3 Coats; Exterior SP6/3 Coats; Containment; Repairs

Contract amount: \$335,925

Completed: September 2016

City of Abilene, GA

Engineer: Jacob & Martin, LLC. - Kirt Harle (325) 695-1070

Description:

1.5MG EST; Interior Wet SP10/3 Coats; Interior Dry SP10/3 Coats; Exterior SP6/3 Coats; Containment; Repairs

200,000-Gallon PED; Interior Wet SP10/3 Coats; Interior Dry SP10/3 Coats; Exterior PW/2 Coats; Repairs

Contract amount: \$1,304,400

Completed: October 2016

TANK PROJECT REFERENCES 2015

City Water and Light (Jonesboro, AR)

Engineer: Robert Garland; (870) 219-5234

Description: Craighead 260,000-Gallon STP; Interior SP10/3 Coats; Exterior SP10/3 Coats; Containment and Lead removal; Numerous typical repairs

Contract Amount: \$164,500

Completed: December 2015

City Water and Light (Jonesboro, AR)

Engineer: Robert Garland; (870) 219-5234

Description: Ottwell 200,000-Gallon EST; Interior SP10/3 Coats; Exterior SP10/3 Coats; Containment and Lead paint removal; Numerous typical repairs

Contract Amount: \$270,571

Completed: December 2015

Newport Chemical Depot Reuse Authority (Hillsdale, IN)

Engineer: Burns & McDonnell Engineering Co., Inc. - Joe Darlington (630) 724-3200

Description: 100,000-Gallon EST; Interior SP10/2 Coats with Lead removal, Exterior SP10/3 Coats; Containment and Lead removal; Numerous typical repairs; Cathodic protection system

Contract Amount: \$493,700

Completed: November 2015

New Hope Water Association (Mount Olive, MS)

Engineer: Clearpoint Consulting Engineers - John Anglin (601) 261-2609

Description: Hwy 541 100,000-Gallon EST; Exterior PW/2 Coats overcoat; Interior SP10/3 Coats; Typical repairs

Contract Amount: \$62,700

Completed: November 2015

Warren County Water District (Bowling Green, KY)

Engineer: Manager of Engineering and Construction - Ryan Leisey (270) 842-0052 Ext.512
Description: Plano 500,000-Gallon EST; Interior SP10/3 Coats, Exterior PW/2 Coats; Typical repairs

Contract Amount: \$186,300

Completed: October 2015

City of Greensboro, NC

Engineer: S&ME, Inc. Tim Greene (336) 288-7180 Ext. 11347

Description: 1.5MG EST; Interior SP7 and Spot SP10/2 Coats

Contract Amount: \$192,700

Completed: October 2015

Van Buren Municipal Utilities (Van Buren, AR)

Engineer: Hawkins - Weir Engineers, Inc. - Brett Peters (479) 474-1227

Description: 1.0MG EST; Interior SP10/3 Coats; Exterior SP6/3 Coats;(Hydroflon); Containment; Typical repairs; Electrical grounding ring for lightning protection

Contract Amount: \$428,940

Completed: September 2015

City of Thomaston, GA

Engineer: Atkins North America, Inc. - John Sims (770) 933-0280

Description: 500,000-Gallon EST; Interior SP10/3 Coats; Exterior SP10/3 Coats; Containment and Lead removal; Typical repairs; Electrical work (replace FAA lighting)

Contract Amount: \$450,380

Completed: July 2015

City of Fulton, AR

Engineer: Spears Engineering Company - Glen Spears (870) 774-3204

Description: 50,000-Gallon EST; Interior SP10/3 Coats; Exterior SP6/3 Coats Containment and Lead removal

Contract Amount: \$154,180

Completed: April 2015

Town of Mt. Jackson, VA

Engineer: Kreye Blankenship, Inc. - Terry Blankenship (804) 347-4684

Description: 500,000-Gallon PED; Interior Dry touch up only; Exterior SP10/3 Coats (Hydroflon); Containment; Apple Basket mural

Contract Amount: \$249,200

Completed: March 2015

Warren County Water District (Bowling Green, KY)

Engineer: Manager of Engineering and Construction - Ryan Leisey (270) 842-0052 Ext.512

Description:

Greenwood 250,000-Gallon EST; Exterior PW/2 Coats; Interior SP10/3 Coats; Typical repairs and logos

Lover's Lane Tank 2.0MG Fluted Hydropillar; Exterior PW/1 Coat; Typical repairs and logos

Contract Amount: \$254,000

Completed: January 2015

Orange City, IA

Engineer: DGR Engineering - Logan Smidt (712) 472-2531

Description: 500,000-Gallon PED; Interior SP10/2 Coats; Exterior SP6/3 Coats; Containment; Repairs

Contract amount: \$344,750

Completed: October 2015

Texarkana, TX

Engineer: Texarkana Water Utilities - J.D. Phillips (903) 798-3800

Description:

Interstate 30 2.0MG EST; Interior Wet SP10/2 Coats; Interior Dry SP10/3 Coats; Exterior SP6/3 Coats; Containment; Repairs

College Hill 500,000-Gallon EST; Exterior SP6/3 Coats; Containment

Liberty Eylan 400,000-Gallon PED; Interior Wet SP10/2 Coats; Interior Dry SP10/3 Coats; Exterior SP6/3 Coats; Containment; Repairs

Wright Patman 200,000 Gallon STP; Interior SP10/2 Coats

Contract Value: \$1,255,525

Completed: August 2015

TANK PROJECT REFERENCES 2014**Suominen Nonwovens (Bethune, SC)**

Engineer: Timothy Horton; (843) 334-3171

Description: 150,000-Gallon EST; Exterior PW/2 Coats, Interior SP10/3 Coats; Miscellaneous repairs

Contract Amount: \$82,350

Completed: December 2014

City of Culloden, GA

Engineer: Carter & Sloop Consulting Engineers - John L. Stover, Jr. (478) 477-3923

Description: 75,000-Gallon EST; Interior SP10/2 Coats, Exterior SP6/3 Coats (Hydroflon); Containment

Contract Amount: \$213,680

Completed: November 2014

North Carrollton, MS

Engineer: Willis Engineering - Mike Carver (662) 226-1081

Description:

100,000-Gallon EST; Exterior PW/2 coats; Interior SP10/2 coats (Blastox); Demo elevated tank; Typical repairs

100,000-Gallon EST; Exterior PW/2 coats; Interior SP10/2 coats (Blastox); Typical repairs

24,000-Gallon GST; Exterior PW/2 coats; Interior SP10/2 coats; Minimal repairs

Contract Amount: \$135,000

Completed: October 2014

Greenville, SC

Engineer: URS Corporation - Nathan Ward (803) 254-4400

Description: White Horse 500,000-Gallon EST; Exterior SP6/3 Coats (Hydroflon); Containment;
Interior SP10/3 Coats; Typical repairs and logos

Contract Amount: \$329,900

Completed: September 2014

Town of Calhoun Falls, SC

Engineer: Dunn and Associates Engineering - Keith Dunn (864) 222-0339

Description:

250,000-Gallon EST; Interior SP10/3 Coats; Exterior SP6/3 Coats (Hydroflon); Containment &
Lead Removal; Typical repairs

125,000-Gallon PED; Interior wet SP10/3 Coats; Interior dry PW/1 Coat; Exterior PW/3 Coats
(Hydroflon); Typical repairs

Contract Amount: \$293,000

Completed: June 2014

City of La Junta, CO

Engineer: Farnsworth Group - Brian Zick (970) 484-7477

Description: 250,000-Gallon EST; Interior SP10/2 Coats; Exterior High-PW/2 Coats; Typical
repairs; Over \$15,000 allowance for welding and other repairs

Contract Amount: \$157,900

Completed: June 2014

Sheldon, IA

Engineer: DGR Engineering - Gordon Krause (712) 472-2531

Description: 500,000-Gallon EST; Interior SP10/2 Coats (100% solids); Minor repairs

Contract Amount: \$118,700

Completed: June 2014

Durant, OK

Engineer: Wall Engineering - Brandon Wall (580) 317-4104

Description: 1st & Arkansas 750,000-Gallon EST; Exterior PW/2 Coats; Interior SP10/2 Coats;
Typical repairs

Contract Amount: \$207,500

Completed: June 2014

Lancaster County Water & Sewer District, SC

Engineer: DMB Engineers - Charlie McGoughan (336) 629-3931

Description: State Line 500,000-Gallon EST; Exterior PW/2 Coats; Interior SP10/3 Coats;
Typical repairs

Contract Amount: \$174,700

Completed: February 2014

TANK PROJECT REFERENCES 2013

MO, American Water

Engineer: Sr. Specialist Maintenance Services - Mike Ryno (573) 634-3801 ext. 1107
Description: Oakville #1 Elevated 150,000-Gallon EST; Exterior SP6/3 Coats; Interior SP10/3 coats; Containment and Lead removal; Typical repairs
Contract Amount: \$273,335
Completed: December 2013

Hays, KS

Engineer: City of Hays, KS - Utility Director - Jim Cooper (785) 628-7360
Description: Fairground Road 500,000-Gallon PED; Interior SP10/3 Coats; Minor repairs
Contract Amount: \$66,000
Completed: November 2013

Atoka, OK

Engineer: Wall Engineering - Brandon Wall (580) 317-4104
Description: Downtown 200,000-Gallon EST; Exterior SP6/3 Coats (Hydroflon); Interior SP10/3 Coats; Containment with Lead removal; Typical repairs
Contract Amount: \$260,400
Completed: November 2013

GA Department of Corrections

Engineer: Carter & Sloope, Inc. - Chris Clark (478) 477-3923
Description:
Johnson State Prison 200,000-Gallon EST, Exterior PW/2 Coats; Interior SP10/2 Coats; Typical repairs and fence
Walker State Prison 42,000-Gallon STP, Exterior SP6/3 Coats; Interior SP10/2 Coats; Containment; Typical repairs and site fence
Contract Amount: \$182,300
Completed: November 2013

Plainfield, IN

Engineer: Butler, Fairman, Seufert, Inc. - Jonathan D. Olson (317) 713-4615
Description: Carr Road 500,000-Gallon EST; Exterior PW/2 Coats (Hydroflon); Interior touchup; Cathodic protection; Typical repairs
Contract Amount: \$186,000
Completed: October 2013

Gilbert, LA

Engineer: McManus Consulting Engineers - Micah Ferguson (318) 343-5600
Description: Hwy 15 50,000-Gallon EST; Exterior SP6/3 Coats; Interior touchup; Containment and Lead removal; No repairs
Contract Amount: \$101,600
Completed: September 2013

Gila River Indian Community (Sacaton, AZ)

Engineer: Department of Public Works - Project Manager - Chris Huang (520) 796-4532

Description: Wild Horse Pass Booster Station #1 and #2 Tanks:

300,000-Gallon GST; Exterior PW/1 Coat; Interior SP10/1 Coat (100% solids); Typical repairs

500,000-Gallon GST; Exterior PW/1 Coat; Interior SP10/1 Coat (100% solids); Typical repairs

Contract Amount: \$209,792

Completed: September 2013

Bowersville, GA

Engineer: Rindt-McDuff Associates, Inc. - Zach Handach (770) 531-5109

Description: 100,000-Gallon EST, Exterior PW/2 Coats; Interior SP10/3 Coats; Typical repairs

Contract Amount: \$56,100

Completed: September 2013

New London, WI

Engineer: AECOM - Dennis Saari (715) 342-3041

Description: 300,000-Gallon PED; Exterior PW/2 Coats (Hydroflon); Interior SP10/2 Coats;
Typical repairs

Contract Amount: \$195,140

Completed: August 2013

Otterbein, IN

Engineer: Butler, Fairman, Seufert, Inc. - Jeremy Campbell (317) 443-2910

Description: Meadow Street 125,000-Gallon EST; Exterior SP6/3 Coats; Interior touchup;
Containment and Lead removal; Typical repairs

Contract Amount: \$230,000

Completed: August 2013

Florence, SC

Engineer: URS Corporation - Nathan Ward (803) 254-4400

Description: Otis Way 500,000-Gallon EST; Exterior SP6/3 Coats (Hydroflon); Interior SP10/3
Coats; Containment; Typical repairs and logos

Contract Amount: \$329,550

Completed: July 2013

Jackson County RWD#1, KS

Engineer: Bartlett & West Engineers - Louis Funk (785) 272-2252

Description: 300,000-Gallon EST; Exterior PW/1 Coat; Interior SP10/2 Coats, Typical repairs

Contract Amount: \$78,000

Completed: November 2013

Darlington County Water & Sewer Authority, SC

Engineer: Davis & Brown Engineering - Glenn Kervin (843) 665-6746

Description: Office 500,000-Gallon EST; Exterior PW/3 Coats (Hydroflon); Interior SP10/3
Coats; Minor repairs

Contract Amount: \$190,000

Completed: November 2013

Barnwell, SC

Engineer: URS Engineering - Bryan Black (803) 254-4400

Description: Main Street 500,000-Gallon EST; Exterior SP6/3 Coats (Hydroflon); Interior SP10/3 Coats; Containment; Typical repairs

Contract Amount: \$272,300

Completed: October 2013

Leigh, NE

Engineer: JEO Consulting Group, Inc. - Dale Bohac (402) 371-6416

Description: Village 50,000-Gallon EST; Exterior PW/1 Coat; Interior SP10/2 Coats (100% solids); Typical repairs

Contract Amount: \$65,100

Completed: September 2013

Jackson County, MO (PWSD#13)

Engineer: HDR Engineering - Scott Fleming (816) 347-1354

Description: 1.0MG EST; Exterior PW/2 Coats; Interior SP10/3 coats; Typical repairs

Contract Amount: \$289,900

Completed: May 2013

Albertville, AL

Engineer: KREBS Engineering - Scott Lee (205) 987-7411

Description: Beulah 200,000-Gallon EST; Exterior Wet SP6/3 Coats; Interior SP10/3 Coats; Typical repairs

Mary 2.3MG GST; Exterior PW/2 Coats; Interior SP10/3 Coats; Typical repairs

Contract Amount: \$344,600

Completed: April 2013

Fernandina Beach, FL

Engineer: Utilities Director - John Mandrick (904) 277-7380

Description: 11th Street Plant 500,000-Gallon PED; Interior SP10/3 Coats
