

Long Range Fiscal Planning Committee Annual Report

The Long Range Fiscal Planning Committee (LRFPC) met 7 times in 2021.

The Committee discussions began with a broad range of subjects to determine where the attention of work should be. Following several meetings, it was determined that there should be five (5) areas of focus:

- a) IT
- b) Staffing
- c) Fleet Management
- d) Capitol
- e) Building Maintenance

Subsequently, after reviewing these areas, it is considered that Fleet Management is the obvious subject for initial discussion since it has been a considerable amount of time since a study of the town-wide fleet has been conducted.

The process for update of the Fleet Management Plan is expected to begin with the appointment of the members of the LRFPC following the December Meeting of the RTM.

Respectfully,
R. F. Muckle
Chair
LRFPC
