Hardship Narrative:

The Property located at 43 Myrock Avenue, Waterford, CT 06385 is an existing non-conforming lot, located in the R-20 Residential Zone and presents three major components contributing to the hardship encountered for the proposed project: Additions and Alterations to the Mitchell Residence.

First, the existing lot area is 12,535.8 SF and the R-20 Residential Zone requires a minimum lot area of 20,000 SF. Second, the existing side yard on the South side of the Property is 11 linear feet and the minimum side yard for R-20 Residential Zone is 20 linear feet. Lastly, the existing front yard on the East side of the Property is 34 linear feet and R-20 Residential Zone requires a minimum front yard of 50 linear feet.

The proposed project does not make the existing non-conformity more egregious. The addition off the West of the existing residential structure is approximately 12 linear feet from the side yard on the South portion of the lot and meets the minimum rear yard setback of 50 linear. The addition on the North side of the existing residential structure does not encroach on the side yard on the North side of the property and is 44.5 linear feet from the front yard. This an additional 10.5 linear feet more relief than the existing residential structure's 34 linear feet encroachment.

It is the position of Straight Line Design, LLC. that if the lot met the minimum area requirements for the R-20 Residential Zone and the existing residential structure were located a minimum of 20 linear feet from the South side yard setback, the proposed project would be in compliance with the Zoning Regulations.

Respectfully submitted,

Straight Line Design, LLC.
