15. For Informal Staff Review Use Only

Sec. 7-159b – Pre-application review of use of property. Notwithstanding any other provision of the general statutes, prior to the submission of an application for use of property under chapters 124, 126, 440 and 541 or any other provision of the general statutes authorizing an authority, commission, department or agency of a municipality to issue a permit or approval for use of such property, such authority, commission, department or agency or authorized agent thereof may separately, jointly, or in any combination, conduct a pre-application review of a proposed project with the applicant at the applicant's request. Such pre-application review and any results or information obtained from it may not be appealed under any provision of the general statutes, and shall not be binding on the applicant or any authority, commission, department, agency or other official having jurisdiction to review the proposed project.

I have read and understand the above provision of the Connecticut General Statutes and understand and agree that whatever discussion, comments and/or recommendations are made through this review are non-binding upon the parties.

Further, I acknowledge and agree that this pre-application review meeting is being conducted prior to and in anticipation of a formal application to the Waterford Planning and Zoning Commission or Conservation Commission to obtain feedback and response to the proposal or design, as it exists on this date, in the interest of preparing an application consistent with the Subdivision, Zoning or Wetlands regulations of the Town of Waterford as the case may be.

Affordable Housing Application

Roberts Village

430 Mohegan Avenue Parkway & 23B Old Norwich Road

Project Narrative

August 2024

Statement of Use

The subject application entails an Affordable Housing Development on 5.71 acres of vacant land located in a R-20 District at the end of Roberts Court in the Quaker Hill section of Waterford. This application is submitted pursuant to Connecticut General Statutes § 8-30g. These types of applications are not required to conform with the Zoning Regulations or the underlying zoning district. The project consists of a 24-unit residential development comprised of detached single-family and duplex dwellings. The proposed dwellings are one to two stories and range in size from approximately 1,187 SF to 2,160 SF with 3 to 4 bedrooms each. Primary access to the site is provided by a private loop road to be constructed off the end of Roberts Court. Additional pedestrian access is provided to Old Norwich Road. The project will be served by public water and sanitary sewers. The Conservation Commission granted approval for the project at its August 8, 2024 regular meeting. A total of 8 of the 24 proposed units, encompassing the proposed duplex units, will be deed restricted as affordable units. The project will be organized as a common interest community and the affordable units will be initially offered as rentals. The market rate units will be offered for sale.

State of Design Compatibility

The surrounding neighborhood to the north of the project site, along Senkow Drive and Roberts Court, is predominately comprised of one and two-story post-WWII single family homes on substandard undersized lots. While the proposed density of the Affordable Housing Development would be greater than what is allowed in the underlying R-20 District, it is not significantly different than that of the surrounding pre-existing neighborhood. The design of the proposed units and materials to be utilized is also consistent with existing neighboring residential buildings.

Consistency with Adopted Plan of Preservation, Conservation and Development

The proposed Affordable Housing Development is generally consistent with the 2012 POCD's goal of diversifying Waterford's housing portfolio, which includes creating new affordable housing opportunities for residents (pages 80 & 84). The designation of the future land use of this site, along with neighboring properties, as "medium density residential" is also consistent with the project (page 4, 2015 supplement). In addition, the scale and scope of the proposal, including most notably the decision not to propose multifamily or high-rise buildings, is also in line with general recommendations provided in the 2022-2027 Affordable Housing Plan that seeks to preserve neighborhoods and their character in developing new affordable units.

NOTE: This map shows known locations of State and Federal Listed Species and Critical Habitats. Information on listed species is collected and compiled by the Natural Diversity Data Base (NDDDB) from a variety of data sources. Exact locations of species have been buffered to produce the generalized locations.

This map is intended for use as a preliminary screening tool for conducting a Natural Diversity Data Base Review Request. To use the map, locate the project boundaries and any additional affected areas. If the project is within a hatched area there may be a potential conflict with a listed species.
