

Waterford Flood & Erosion Control Board Meeting

Minutes for July 7, 2021

Members Present: Baird Welch-Collins, George Harran, Jennifer Kohl, Chris Callahan

1. Meeting called to order at 7:04 pm by Baird Welch-Collins. Members selected a site walk at Waterford Town Beach & Alewife Cove Channel.
2. Members viewed extensive work by Rec & Park. There is now a concrete sidewalk from the parking lot to the bridge. The original walkway has been moved to higher ground to reduce the flooding that would occur. Members observed a low tide at the Alewife Cove Channel. The area of Ocean Beach at the beginning of the New London jetty continues to erode behind the jetty on the out going tide. Due to thunder and rain predicted shortly, site walk was concluded.
3. Meeting adjourned at 7:40 pm.

Respectively submitted by Chris Callahan
